1 The Muffin Man

1.1 Making Muffins

There is much to consider when making muffins.

1.1.1 Choosing the Right Ingredients

Any Muffin Man knows the right selection of bacon can make or break a good muffin. Basically you can type whatever you want here and LaTeX will format it nicely for you.

1.1.2 Mixing

Put your back into it.

1.1.3 Into the Oven

Preheat your oven to $\frac{1}{\pi} \sum_{i=0}^{\infty} e^i$ degrees.

1.2 Sellings Muffins

1.2.1 Presentation

Ugly looking muffins won't get bought.

1.2.2 A Good Store Front

People won't come into a shady looking place, no matter how good your muffins are.
